ABOUT ME

Junior Full Stack Developer with hands-on experience in building modern web applications using React.js, Next.js, Node.js, Express.js, and database technologies. Completed Full Stack Development training at G-TEC Centre of Excellence and gained practical industry experience through a two-month internship at globaone. Developed projects including an Enterprise ERP/POS platform and ClassDesk tuition management SaaS. Interested in problem-solving, application development, and continuously improving technical skills.

G-TEC center of excellence | 2025-2026

Full stack development (MERN)

GHSS pookkottumpadam| 2023-2025

Plus two computer science

EXPERIENCE

Full Stack Developer Intern | Globaone | 2026 (2 months)

Project : Multi-Industry Enterprise ERP & POS Platform

- Worked on a multi-tenant ERP and POS platform designed to manage business operations across multiple branches.
- Worked with a technology stack including Next.js, Express.js, PostgreSQL, and Prisma.
- Worked on a platform designed to support different business sectors, including restaurants, rental services, textile businesses, laundry services, and gyms.

PROJECT

Multi-Industry Enterprise ERP & POS Platform

A full-stack, multi-tenant Enterprise Resource Planning (ERP) and Point of Sale (POS) platform built to manage business operations across multiple branches. Features real-time inventory synchronization, barcode-enabled POS billing, granular role-based access control (RBAC), and centralized business management. Includes partial Redis integration and WebSocket-based notification functionality.

ClassDesk – Tuition Centre Management SaaS | Next.js

A modern tuition centre management SaaS platform built with Next.js, React, Node.js, and PostgreSQL. Features centralized super admin controls, student and centre management, dynamic centre-specific branding, and dedicated dashboards to simplify daily tuition centre operations.
